PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Full Stack Development, Data Analytics, and Artificial Intelligence. Proficient in Python, Java, React, Node.js, MongoDB, SQL, and RESTful API development. Hands-on experience through multiple internships building scalable web applications, AI-driven platforms, and enterprise workflows using ServiceNow. Targeting **Software Engineer Intern, Full Stack Developer Intern, or Data Analyst Intern** roles.

EDUCATION

Anurag University

Bachelor of Technology in Computer Science Engineering

Relevant Coursework: Data Structures and Algorithms, Artificial Intelligence, Machine Learning, Database Management Systems, Web Development, Cloud Computing

Alphores Junior College

Intermediate in Physical Sciences

Mary Mediatrix High School

Secondary School Certificate in Physical Sciences

Hyderabad, Telangana, India

August 2023 – April 2027

Karimnagar, Telangana, India

July 2021 – March 2023

Manthani, Peddapalli, Telangana, India

June 2020 – April 2021

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, SQL, HTML5, CSS3

Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), SDLC, Agile

Frontend Development: React.js, HTML, CSS, JavaScript, Responsive Web Design

Backend Development: Node.js, Express.js, RESTful API Development

Databases: MongoDB, SQL

Data & Analytics: Pandas, Power BI, Data Analysis, Data Visualization, Statistical Analysis

AI & ML: Artificial Intelligence, Machine Learning, TensorFlow

Enterprise Tools: ServiceNow Platform, Flow Designer, Automated Test Framework

Version Control & Tools: Git, GitHub, Visual Studio Code

Core Keywords: Python, Java, React, Node.js, MongoDB, REST APIs, SQL, DSA, OOP, Git

INTERNSHIP EXPERIENCE

Web Development Intern

Cognifyz Technologies

December 2025 – January 2026

Hyderabad, Telangana, India

- Developed 4+ responsive web applications using JavaScript and React, improving UI responsiveness by ~30%
- Implemented cross-browser compatibility fixes, reducing UI-related issues by 25%
- Collaborated with cross-functional teams to deliver client-ready features
- Conducted browser and device compatibility testing across multiple platforms
- Participated in code reviews, improving code quality and maintainability

MERN Stack Development Intern

WebStack Academy (Emertxe)

November 2025 – Present

Hyderabad, Telangana, India

- Selected for a competitive, fully funded MERN Stack internship among nationwide applicants
- Building full stack applications using MongoDB, Express.js, React.js, and Node.js
- Developing RESTful APIs with secure authentication and server-side logic
- Designing database schemas and implementing role-based access control
- Gaining exposure to deployment workflows and cloud infrastructure practices

Web Development Intern

SaiKet Systems

November 2025 – December 2025

Hyderabad, Telangana, India

- Designed responsive user interfaces using React.js and modern CSS frameworks
- Built reusable components with efficient state management
- Translated client requirements into scalable technical solutions
- Optimized application performance using code splitting and lazy loading
- Integrated third-party APIs to enhance application functionality

Virtual Intern

ServiceNow University

October 2025 – November 2025

Hyderabad, Telangana, India

- Completed training in Agentic AI, ServiceNow Administration, and workflow automation
- Developed automated workflows using Flow Designer, reducing manual processing
- Performed quality assurance using Automated Test Framework (ATF)
- Prepared for Certified System Administrator (CSA) exam
- Built reporting dashboards to support data-driven decision-making

PROJECTS

AgroLync – Agricultural Marketplace Platform

- Developed an AI-driven agricultural marketplace connecting farmers with buyers
- Implemented a computer vision pest detection model using TensorFlow and Python
- Built frontend using React.js and backend REST APIs using Node.js and Express.js
- Designed MongoDB database architecture for users, transactions, and inventory
- Integrated SMS-based offline support for low-connectivity rural regions
- Deployed the application on a cloud platform to ensure scalability

Business Intelligence Data Analytics Dashboard

- Built interactive dashboards using Power BI and Python (Pandas)
- Processed and analyzed large datasets to identify trends and insights
- Implemented data cleaning, transformation, and statistical analysis workflows
- Automated reporting pipelines, improving accuracy and efficiency

CERTIFICATIONS

Data Analysis in Python Using Pandas DataFrames

ServiceNow Virtual Internship Program

Power BI Workshop

AI Tools Workshop

Microsoft AI Skills Fest

Google Cloud Agentic AI Day

Salesforce AgentForce Workshop

Ethical Hacking Workshop

Certificate of Participation – TVS Credit EPIC 7.0 IT Challenge
